30 OZ NO SHOES NATION TUMBLERS
(available in seafoam, white, black and stainless steel)

Engel's 30 oz. coated stainless steel, vacuum-insulated performance tumblers are built to keep your drink cool on the beach, on a boat or at a festival.

**NO SHOES
NATION
TUMBLERS**

ENGEL is proud to partner with Kenny Chesney's No Shoes Nation. ENGEL and No Shoes Nation embody the spirit of adventure, sharing the love of sandy beaches, beautiful oceans and living reefs. Together, our No Reefs Reef program, will donate a portion of the sales of No Shoes Nation and No Shoes Reefs branded products to building artificial reefs in the Gulf of Mexico, Atlantic Ocean, surrounding rivers and waterways.

COOLERS

ENGEL coolers are the original high-performance cooler, roto-molded for toughness and durability. Filled with a full 2 inches of insulation in the lid, on the sides, and on the bottom, helping to retain cold and ice for up to 10 days. The silicone gasket creates an airtight seal that is durable and will never lose its shape.

NO SHOES NATION BACKPACK COOLERS

NO SHOES NATION BACKPACK COOLERS

(available in orange, black and grey)

The Engel NSN Backpack Cooler features a rugged, tear-resistant 600-denier polyester diamond ripstop outer shell with a waterproof TPE coating for easy cleaning. Inside, there is a radiant barrier liner of reflective foil and 1" thick layer of closed-cell foam insulation.

ENGEL®

WORKING TOGETHER TO HELP SAVE THE REEFS

Kenny Chesney's No Shoes Nation has partnered with ENGEL Coolers, the most trusted cooler on the water, to create No Shoes Reefs.

The goals of No Shoes Reefs are two-fold, to raise awareness and the much needed funding to protect precious coral reefs which are vital for aquatic ecosystems to thrive.

In 2017 No Shoes Reefs collaborated with the Andrew 'Red' Harris Foundation, an organization that builds artificial reefs off the coast of Jupiter.

We are currently selling limited edition t-shirts, hats and tumblers with a large portion of the proceeds going directly to the No Shoes Reefs conservation efforts.

ENGEL TUMBLERS BEYOND REFRESHING

ENGEL'S 20, 22, AND 30 oz stainless steel, vacuum insulated, performance tumblers are built to help you keep your cool in the harshest conditions.

ENGEL TUMBLER FEATURES

Whether you're bringing a hot or cold drink along for the ride, the Engel Spill-Proof Lid will ensure you enjoy your drink, not wear it. The air-tight seal keeps your drinks in the cup when the boat bounces or the truck swerves.

Just like our award-winning coolers, we've thought of the details that matter.

ENGEL COOLERS BEYOND PERFORMANCE

ENGEL'S original high-performance cooler is roto-molded for toughness and durability. It's filled with a full 2 inches of insulation in the lid, on the sides, and on the bottom, helping to retain cold and ice for up to 10 days.

Our coolers are rugged, durable and bear proof... nothing beats an ENGEL. The first choice of professionals and the absolute best coolers for fishing, hunting, camping, tailgating and off road expeditions.

"Whether it's keeping meat cool and safe in Alaska, storing food for weeks in Africa, or icing down beer in duck camp... no matter where I go in the world or what I am hunting, my Engel Cooler is one of the most critical and dependable pieces of gear I have".

CERTIFIED BEAR RESISTANT

BY THE INTERAGENCY GRIZZLY
BEAR COMMITTEE (IGBC)

To be Certified Bear
Resistant it is critical
that padlocks are placed
through both DuoLock
Security Holes to lock
your cooler shut and make
it Bear Resistant.

ENGEL HIGH-PERFORMANCE COOLERS

A CLOSER LOOK

FLICK DRAIN PLUG™

Unique, recessed, one twist opening drain plug with lanyard hole.

UNITY LATCH SYSTEM™

Recessed, marine-grade, adjustable draw latches with stainless steel backing plates & screws.

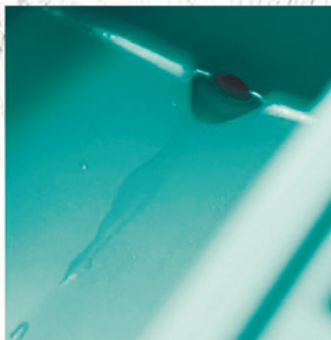

ARCTICVAULT GASKET™

Air-tight food-grade silicone gasket keeps lid closed more securely.

I-BEAM LID INSERTS™

Durable I-Beam inserts for maximum weight-bearing strength, prevents lid warping.

PITCHED COOLER FLOOR

Allows water to self-drain completely, without tipping the cooler to empty it.

CORNERSTONE FEET™

Non-skid, non-marking feet help keep your cooler in place and elevate the it off the deck for easier cleaning.

DUOLOCK SECURITY HOLES™

DuoLock Security provides dual padlock holes for locking your cooler shut and making it Bear Resistant.

HIGH-PERFORMANCE COOLERS | FEATURES

BUILT-IN DURABLE ROPE HANDLES

with ergonomic plastic hand grips for easy and convenient transporting.

QUADRA-GRIP TIE-DOWN POINTS™

Slots for crimped locking cables to better secure the cooler, providing multiple tie-down options.

ADDITIONAL SOLID HAND GRIP

for more support, stability and ease-of-carry.

IGBC CERTIFIED BEAR RESISTANT CONTAINER

molded on rear outside of the cooler.

ANVIL HINGE™

Full length, integrated, self-stopping rear hinge for maximum strength.

INTEGRATED LID

Opening handle makes for easier, faster access. The depression built into the bottom half of the cooler allows you to conveniently open your lid.

Latch Keeper

Stainless Steel Inserts

STAINLESS STEEL INSERTS

While so many other coolers lack structural integrity, Engel's screws are attached to stainless steel inserts for superior durability and reinforcement.

OPEN BEER HERE

Engel latch keeper doubles as a bottle opener. Yes, we thought of everything!

ENGEL COOLER ACCESSORIES

COOLER SEAT CUSHIONS

Made of white, marine grade vinyl with 2-inches of padding. Attaches to cooler lid using marine grade snaps - included. Available for ENG25 - ENG320

COOLER TRAY AND CUTTING BOARDS

Can be used to organize food and drinks on top of lower layer of ice. Also use as stacking bait trays. Trays available in 2" and 4" deep for ENG35, 50, 65, 80. Cutting boards available for ENG35, 50, 65, 80.

ROD HOLDERS

Now you can safely attached a rod holder almost anywhere.

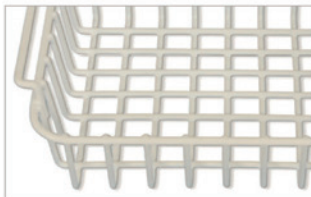

STAINLESS STEEL LATCH

Stainless steel replacement latch for -now you can choose between rubber or marine grade stainless steel.

DIVIDERS

Divider slots for optional plastic dividers - allows user to separate ice from other contents. The dividers can also be used as a convenient cutting board. Made of King StarBoard®. Smaller coolers with 2 latches take one divider. Larger coolers with 3 latches can take 2 dividers.

HANGING WIRE BASKETS

For efficient storage, Engel's hanging wire baskets are a great addition to any fishing trip or outdoor adventure. Available for ENG25 through ENG240.

COOLER SLIDER

Cooler Slides for easier access under boat seats. Available for ENG35, ENG65, and ENG80.

COOLER TIE-DOWN NYLON WEB STRAPS

NON-SKID COOLER PAD

Available for ENG25, 35, 50, 65, 80, 123

ENGEL PRO STAFF

"Why do I rely Engel Coolers? Simply put, it's a cooler made to last a lifetime.

There are tons of choices in the cooler market these days, but when I considered purchasing a cooler I wanted one that got the job done!

Living in Florida and spending time freshwater fishing, saltwater fishing, hunting and/or hanging at the beach, my Engel cooler was the best fit for me and my family.

With all the sizes and options that Engel Cooler's offer, including the innovative bait coolers and 12 Volt electric Fridge-Freezers - Engel has all of my adventures covered!

ENGEL ICE COOLER/ FREEZER PAKS

This High Performance Pak is non-toxic, non-hazardous, and re-usable and outperforms standard gel packs. The Engel Cooler Pak makes for a great cooler companion to keep contents cold and dry. Works great in lunch boxes, beach coolers, soft sided coolers and cold shipping. It also works well to extend the life of traditional bagged ice. Enjoy your recreational sports without the mess of melted ice.

Upgrade to the Engel 20 Freezer Pak to keep your bait frozen on those long voyages or catch fresh for the trip home.

ENGEL HARD SHELL FREEZER PAK

available in medium (ENGFP7-2HP) and large (ENGFP7-5HP) paks

MEDIUM	LARGE	Temperature at which product phase changes
length: 9.375"	length: 12.5"	20°F
width: 7.125"	width: 8.375"	
height: 1.375"	height: 1.625"	

ENGEL HARD SHELL COOLER PAK

available in medium (ENGCP-2HP) and large (ENGCP-5HP) paks

MEDIUM	LARGE	Temperature at which product phase changes
length: 9.375"	length: 12.5"	32°F
width: 7.125"	width: 8.375"	
height: 1.375"	height: 1.625"	

These paks are safe, environmentally friendly and re-usable up to five years! Therefore, the Engel Cooler Pak's are a great alternative for gas emitting dry ice as our pack do not require special handling, training or costly haz-mat shipping fees.

ENGEL COOLER/ DRY BOXES BEYOND RELIABLE

Engel's Cooler/Dry Box is the perfect companion for whatever the day calls for. Use the box as a cooler for a soccer game, store fresh food for a picnic, or keep just-caught fish from spoiling.

Or, when you're out on the lake or in the field, use it as a dry box to keep items like clothes, cameras, ammo and sensitive electrical equipment free from water and dust.

COOLER/DRY BOX | FEATURES

Every Engel Cooler/Dry Box has an airtight, watertight EVA foam gasket that not only keeps the hot out and the cold in, it seals so tightly there is no chance of leakage or mess.

Our Polypropylene case is impact resistant to handle the toughest situations, while our draw-down stainless steel latches provide additional security. Cooler/Dry Boxes also float and can be used as a ditch bag.

Non-Absorbent Surface

Will not allow stains or odors to penetrate

Engel won "BEST OF SHOW" AT ICAST 2014 for their Cooler/Dry Box with Rod Holders

LIVE BAIT COOLER WITH ROD HOLDERS

Fishermen in need of live bait, your solution has arrived! The new Engel Insulated Live Bait Cooler with or without rod holders, keeps bait fresh, energetic and cool with our advanced 2x2 water oxygenation air pump – and it's so portable, you can take it anywhere! Our Live Bait Cooler has all the high-quality insulation, rugged durability and secure seal protection you've come to expect from Engel Cooler/Dry Boxes – with the added ability to circulate and aerate the water inside so that bait remains fresh and alive no matter what the temperature is outside.

LIVE BAIT COOLER

ENGEL LIVE BAIT COOLER available in WHITE, 13, 19 and 30 quart sizes

NEW FOR 2018

LIVE BAIT COOLER ACCESSORIES | PARTS

BAIT NET

Pull net feature makes fetching your bait and changing water a breeze... and it's designed to withstand wear and corrosion.

2 SPEED AIR PUMP

The 2-speed Engel 2X2 Air Pump runs strong on two (2) D-Cell batteries (not included) or 12V DC adapter. Run on high speed when your cooler is full of bait. Switch the pump down to low speed and conserve battery power later in the day. Plug into your car or boat's cigarette lighter using the handy 12V adapter to run the pump overnight and keep bait fresh for extended periods.

NEW 110 V AC ADAPTER

Use optional adapter to plug your live bait cooler into a wall socket to keep it running, and your bait alive, overnight.

INTRODUCING THE HD30 SOFT-SIDED COOLER BAG

Unlike the soft-sided coolers you'll find on the shelves of the big box stores, ENGEL HD30 Cooler Backpacks are engineered to withstand harsh use on land or sea. They feature a rugged, tear-resistant 840-denier polyester diamond ripstop outer shell with a waterproof TPE coating for easy cleaning.

NEW FOR
2018

ENGEL

HD30 SOFT-SIDED COOLER BAGS

3 WAYS TO CARRY

Side Handle

Adjustable Ergonomic Shoulder Strap

Tote Handles

Integrated Bottle Opener

The ENGEL HD-30 soft-sided cooler is entirely welded, while comparable bags are sewn. By welding all seams, warm air is kept out, with no water leaks. The HD-30 boasts an outer shell composed of durable 840 denier, which provide maximum strength and abrasion resistance. The front and back side are laminated with a Thermal Plastic Urethane (TPU) film, adding another layer of strength and puncture resistance.

ENGEL BACKPACK COOLERS

WHAT'S INSIDE?

Main large compartment with patented antimicrobial protection.

Second smaller compartment for dry goods storage or for holding your Engel Cooler Pak (see page 19).

Both compartments enclosed in high performance, closed cell insulation with radiant barrier for the best performance in sunlight.

4 'D' Rings for easy tie-down

Large carry handles

Water resistant compartment zippers

Quick grab handle

Vented, load-bearing padded shoulder straps

Non-skid foot pads

ENGEL BACKPACK COOLERS

Our Backpack Coolers are available in the hottest new Camo pattern, Prym1, designed by wildlife artist Stacie Walker, or Seafoam, perfect for ocean or beach.

EASY ACCESS WITH ROOM TO SPARE

With a whopping 23 qt capacity, there's plenty of room in the Engel Backpack Cooler for drinks and a hearty picnic lunch – with capacity to add a couple of Cooler Paks. (Engel Cooler Paks will keep the contents in the main section cold without the mess of ice. (See page 19)

The top opening features a heavy-duty 2-way water-resistant zipper that pulls open for full access to the main inner compartment. Next

to the main opening, there is a zippered side pocket, an ideal place to put an extra Engel Cooler Pak or two.

POCKETS, HANDLES AND STRAPS

The flat bottom of the cooler bag is fitted with four non-skid feet to keep it from sliding around on deck. There are mesh side pockets for items that don't require cooling, a large zippered front pocket, and an outer pocket for last minute items. Sturdy tote handles slide onto your shoulder or you can carry the Engel Backpack Cooler by hand. Plus, there are padded, breathable shoulder straps that make it easy to carry it as a backpack.

ENGEL FRIDGE/ FREEZERS

With over 50 years of proven reliability, Engel portable fridge/freezers have been keeping the cold in season after season. We started off a wave of innovation with these units and they just keep getting better thanks to our commitment to the latest advancements in cooling technology.

ADJUSTABLE TO MEET YOUR NEEDS

Whether you're looking to keep ice cream frozen or keep your latest catch refrigerated, Engel fridge/freezers offer full adjustability. Just crank up the dial and you're in control of whatever amount of refrigeration you need.

THE SMART FRIDGE/FREEZER

Most Engel fridge/freezers automatically switch back and forth between AC and DC power (will always prioritize to draw from AC when available) – a big plus for sailors and boaters wanting to move from battery power to shore power. It's handy too, for travelers using on-the-road battery, who also want to plug their Engel in when they get back home.

EFFICIENT FROM THE START

Unlike traditional compressor motors, Engel's swing motor doesn't demand a huge power draw at start-up. This keeps your battery power lasting longer – and that means more hours of reliable cold retention.

**BEYOND
RELIABLE**

ENGEL'S WORLD FAMOUS SAWAFUJI SWING MOTOR

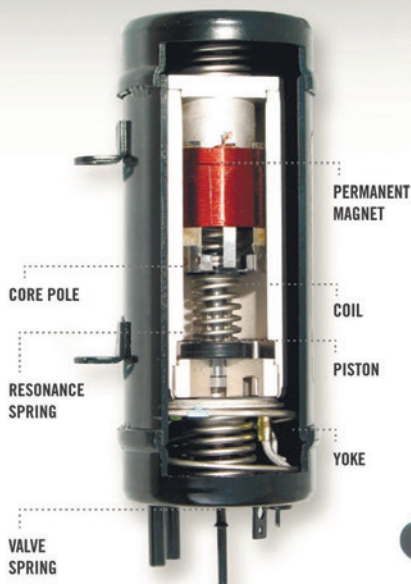

Owners of traditional fridge/freezers are all too aware of how ordinary compressors draw massive amounts of power from their batteries, but with over 50 years of expertise, Engel fridge/freezers are anything but ordinary.

At the core of every new Engel fridge/freezer is the F-Series Engel Swing Motor Compressor. This innovative model of efficiency gives you the refrigeration you need without draining your batteries of all their power. In fact, the F-Series Swing Motor is 40% more efficient than traditional compressors, drawing just a fraction of an amp once they're in use!

So how do we do it? With just one moving part and electro-magnetic piston action, the F-Series Engel Swing Motor uses minimal power at start-up. The piston moves a fraction of an inch and gradually gains speed – delivering efficiency at its best. Compare this to the enormous start-up power draw of a traditional compressor and you'll never want to go back to the old ways ever again.

But the innovations don't stop there. The Engel Swing motor is spring-mounted in a steel cocoon. It's vibration-resistant, maintenance-free, and capable of unaffected operation at inclines of up to 30-degrees. And because every Engel fridge/freezer is designed with airtight seals and thermally efficient insulation, the cold generated by the compressor is never wasted.

When it comes to reliable refrigeration, Engel's thought through every angle.

ENGEL PORTABLE TOP-LOADING FRIDGE/ FREEZERS

MRC40F-U1

12V/24V DC 110V/120V AC Fridge/Freezer

L 15.75" W 7.5" H 8.5"	L 17.4" W 11.2" H 14.6"	26 lbs

ALL DIMENSIONS EXCLUDE HANDLES

Shoulder strap (for easy carrying, included)

TRANSIT BAGS

Digitally Controlled Constant Temperature. Bright Red LED Temperature Display

FRIDGE/FREEZER ACCESSORIES

Transit bags not only protect your Engel Fridge/Freezer with a layer of insulation, they also offer a heavy-duty foil layer on the inner side that reflects direct sunlight and long wave radiation. High quality gray canvas outer layer comes with an accessory pocket and vents. The bag covers the entire unit and is easy to open - simply unzip the bag on top. The bags work with the corresponding Transit Slide Locks. Breathing holes are built in to the compressor to prevent overheating. Durable outer protective canvas. Insulating and shock absorbing inner layer adds to the insulating factor of your Engel freezer. Highly reflective inner foil layer, designed to reflect the long wave heat of the sun, increases the overall performance of your Engel freezer - especially if exposed to any direct sunlight. Quality zipper allows normal access to your freezer. Plastic mesh in the right places allows your freezer to vent itself and operate normally.

TRANSIT BAGS ARE AVAILABLE TO FIT THE FOLLOWING MODELS: MT17, MT27, MT35, MR040, MT45, MT60, MT60 COMBI, AND MT80.

EMS FRIDGE SLIDE MD-14F

The Engel Custom Fridge/Freezer Slide for MD14F/MHD13F-DM is made for EMS model coolers, as it is uniquely designed to allow small coolers to fit in the ALS cabinet of rescue vehicles.

Ultimately, if you need to place one of Engel's small refrigerators in a tight space without much height, this wonderful slide will allow you to do so. The slide will help pull out the fridge to a near 100% extension to clear the lid, allowing EMS workers to have easy access to the cooler's contents.

TRANSIT SLIDE LOCK PLATE

To obviate the need for a ratchet strap, Engel has created the Transit Slide Lock. The Slide Lock bolts to the vehicle's floor and the Engel clips securely to the Slide Lock, eliminating the need for a separate ratchet strap. Only compatible with the MD-14F and MHD13F-DM models.

TRANSIT SLIDE LOCKS TSL17

These are highly recommended for safety, help prevent your Engel fridge/freezer from shifting about in a vehicle or boat. Simply slide your Engel into position and it locks down automatically. To remove just push the clip to release. It's that easy! Compatible with the MT17F-U1 and the MD-14F and MHD13F-DM with TSLPlate, TSL27 (Compatible with the MT27F-U1), and TSL530/540 (Compatible with the MT35F-U1 and MT45F-U1, will work with the MR040F-U1 if the Cushion Feet are purchased).

DC REPLACEMENT PLUG

Fits the Engel DC Cord - as a replacement. Includes Engel Thermal Fuse.

POSITIF

Positif - Is a locking mechanism to lock your Engel's DC power cord into the electrical source.

WIRELESS DIGITAL THERMOMETER

Stop guessing the temperature of your Engel fridge/freezer - Engel's Wireless Digital Thermometer has the precise answer for you! As a tool used to monitor ice temperature, this thermometer reads temperatures in both Fahrenheit and Celsius. It also provides owners with records of minimum and maximum temps, for baseline determination.

HASP 1 FOR MD14F AND MHD13F-DM

A stainless steel locking hasp is designed to safeguard the items inside your freezer. You can rest assured knowing your fridge-freezer is closed tight. Secure it even further with a padlock (not included).

NOTE: We do not recommend that customers install the hasp without proper training. If you attempt it yourself you run the risk of puncturing a gas line - which will critically damage your unit and void your factory warranty.

HASP 2 FOR MT SERIES FRIDGE-FREEZERS

DC POWER CORD PLUG

The Engel DC Power Cord Plug is a replacement for the DC cord in between cord and plug, supplied with all top-opening Engel fridge/freezers up to 43 Quarts. Length: 9 feet. Includes an Engel Thermal fuse (10 Amps).

DC HARDWIRE POWER CORD

The Engel DC Cord - Hardwire is a replacement part that can be used on any other Engel fridge/freezer model for more permanent hook-up to your DC system. Length: 9 feet. Comes standard on Engel MT60F-U1, MT60F-U1-C and MT80F-U1.

AC POWER CORD

The Engel AC Cord is a replacement for the AC cord supplied with all top-opening Engel fridge/freezers. Length: 6 feet. Compatible with all "MT-Series" Fridge/Freezers.

AC ADAPTER

Your Engel fridge/freezer can become more versatile with the purchase of this AC Adapter for DC fridge/freezers. Thanks to this adapter, owners can plug their small DC model fridge/freezers anywhere they go, be it at their home, hotel room, camper or vehicle. One end of the adapter cord can be plugged into house socket, while the other end can be plugged into a female lighter or accessory socket in your car. Regardless of where you go, you will not have to worry about the items in your freezer thawing out and spoiling! Please keep in mind that this adapter is specially designed for Engel models MD14F and MHD13F-DM, as our larger models already have a built in feature that accomplishes the same function.

ENGEL SILIPINTS & SILIBOWLS

Put more fun in your drinks with these durable cups that are ready to be squeezed, shaken, stirred, and served. Silipints are silicone drinking glasses that bring fun to every occasion. Unbreakable drinking cups that come in a variety of shapes, sizes, and all orders of versatility.

ENGEL PRO STAFF

"Whether it is the smaller cooler/dry box on the back of my kayak or the big cooler I keep in my truck, with Engel I know I have the best coolers for the job"

JIM SAMMONS

TV Personality and Kayak Fishing Guide

ENGEL PRO STAFF

"I appreciate not only how well my ENGEL coolers hold ice and cold, but also their extreme durability in a tough offshore fishing environment. They're simply the best."

GEORGE POVEROMO

PROFESSIONAL SALTWATER ANGLER AND
HOST OF GEORGE POVEROMO'S WORLD OF
SALTWATER FISHING ON NBC SPORTS TV

"Having extensively travelled the Baja for the last 35 years, the sun is never your friend. Keeping things cold was a constant battle, until I found the vast array of Engel Cooler Products. From the MT series 12 volt/110 fridge/freezer combo, to the extremely well insulated coolers, dry boxes, and soft packs, I trust no other brand to provide this much diversity in the cooler needs I demand for these harsh desert conditions."
