# FEARLESS

Some will say it's all about the journey, others will say it's the destination. Whatever it is you're chasing, do it fearlessly. Step outside of your comfort zone and confront the unknown, whether it's over that next ridgeline, on the race track, or across the city. Fearlessly pursue a life worth living and never look back.

# PURSUIT

# FORMULA HELMETS

Opt for the absolute in total head protection with FLY Racing's Formula helmet. Its Adaptive Impact System (AIS) whose high-performance ecosystem of structural designs and energy mitigating materials — including RHEON, a leading-edge viscoelastic material — is fine-tuned to greatly improve impact management over traditional helmets. Developed in collaboration with the world's foremost leaders in helmet safety. Tested under rigorous scientific review to exceed ECE and DOT standards. Enjoy elevated defense against a wider range of impacts when you ride with the Formula.

Expanded  
Volume EPS

Quick release  
cheek pads

True functional  
ventilation (TFV)

12K carbon fiber shell

Conehead® EPS technology

Clavicle shell relief zone

## FORMULA CARBON VECTOR HELMET

XS - 2X

### STANDARD:

- ECE / DOT approved

### ADAPTIVE IMPACT SYSTEM:

- 12K carbon fiber shell produces an extremely lightweight shell with superior penetration resistance
- Impact Energy Cells made of RHEON, the Impact Energy Cells maximize absorption of low speed linear and rotational impacts, reducing forces transmitted to the brain
- Conehead® EPS Technology provides a softer liner whereby the cones help manage or absorb an impact force more efficiently. Six critical zones have been fine tuned for a progressive response to low speed and high speed impacts
- Expanded volume EPS means strategic areas of the helmet have more impact absorbing EPS, more suspension between your head and the ground

### CONSTRUCTION:

- EPP chin bar-Expanded polypropylene creates an additional element of impact mitigation
- Clavicle shell relief zone creates a soft zone filled with EPS and EPP to aid in reducing clavicle injuries
- Custom molded rubber trim with integrated nose guard
- Lightweight custom visor screws and titanium alloy D-rings

### WEIGHT:

- 1290 grams +/-50 (size medium/large)

### COMFORT:

- Comfort liner and quick release cheek pads are made of a washable moisture wicking, anti-microbial material

### VENTILATION:

- True Functional Ventilation (TFV)-When in motion air is forced through multiple air intake vents, then passed through aligned vent channels in the EPS and exits out multiple rear exhaust vents

### INCLUDED ACCESSORIES:

- Premium helmet garage
- Extra visor

### OPTIONAL ACCESSORIES:

- Cold weather breath guard:  
XS - LG **73-47209**  
XL - 2X **73-47210**
- Cold weather helmet liner:  
**73-47220(XS - 2X)**

# FORMULA

ADAPTIVE IMPACT SYSTEM

## THE NEW FORMULA HELMET

FLY Racing is proud to present the all new Formula helmet, one of the most advanced motocross helmets ever created. Tested on the most advanced equipment in the world, the Formula helmets overall performance is best in class in both high velocity crashes as well as rotational and low speed impacts. This technologically advanced helmet redefines helmet performance and safety expectations.

## BUILT FROM THE INSIDE OUT

The Formula's Adaptive Impact System (AIS) is the result of years of collaborated research and design with industry leading doctors, scientists, and physicists from around the world. AIS is a high-performance ecosystem of structural design and energy mitigating materials. Each layer from Energy Cells, to the dual-density EPS liner, and the 12k carbon fiber shell, was carefully fine-tuned to achieve superior head protection from the widest possible range of real-world impacts.

**S U S P E N S I O N R E • D E F I N E D**

## ENERGY CELLS ENHANCED BY RHEON

Impact Energy Cells maximize absorption of low speed linear and rotational impacts. Their unique shape and maze-like structure allow them to compress and shear. This slight movement maximizes absorption of low speed linear and rotational impacts reducing overall brain stress.

These Energy Cells are made of RHEON, an “active” strain-rate sensitive material that efficiently absorbs and dissipates energy as it deforms. RHEON’s adaptive chemistry reacts instinctively to control energy and change its behavior depending on the severity or direction of an impact.

## CONEHEAD TECHNOLOGY

Like a crumple zone, Conehead technology absorbs and dissipates impact forces more effectively than traditional EPS helmet liners. Conehead technology produces more progressive energy absorption through a broader range of impact scenarios.

The Formula has six critical zones of Conehead EPS. Each zone has a uniquely fine-tuned combination of EPS densities for a more progressive response to impacts specific to that region of the helmet.

## EXPANDED VOLUME EPS

Studies have shown that the majority of impacts occur on the forehead or side of the head. To help combat these impacts, the Formula development team incorporated lower density expanded volume EPS (thicker EPS) in these critical zones. This expanded volume EPS provides improved suspension for impacts.

## 12K CARBON FIBER SHELL

The Formula’s first line of defense is an extremely strong and lightweight 12K carbon fiber shell. 12K carbon fiber refers to 12,000 carbon filaments per band. Carbon fiber is strongest when it is flat. Wider carbon fiber bands woven together produce a flatter result with less dips and rises inherent in a woven material. The reduction of these dips and rises creates less areas for resin to pool. Less resin equals less weight. The result is an extremely lightweight shell with superior penetration resistance to common 3K carbon fiber.

## MEET THE DOCTORS, AND SCIENTISTS

**DR. DANIEL PLANT** *PhD MENG MA*

Dr. Plant is a mechanical and industrial design engineering expert and Entrepreneur Fellow of the Royal Academy of Engineering, London UK. He invented RHEON, the “active” strain-rate sensitive material revolutionizing the “impact energy control” space.

**DON MORGAN** *Physicist*

Don Morgan is the inventor of Conehead technology. Morgan has spent more than 20 years researching the effectiveness of motorcycle and bicycle helmets and developing the new shock absorbing foam liner for helmets.

# FORMULA HELMET BENCHMARK DATA TESTING

Testing was conducted by two separate independent test labs: SATRA Technology and RHEON LABS

## HELMET TESTING PROTOCOL

Testing the FLY Formula was primarily to confirm that this helmet would provide the highest level of performance and protection across a wide range of impact scenarios.

We identified the top 10 MX helmet brands in the world at the time of testing and tested their best helmet models. In total 60 helmets were tested between SATRA and RHEON LABS altogether comprising 150 individual impacts.

Three helmets of each model were sent to SATRA to be independently tested to ECE standards, for both crown and front-side impacts. 30 helmets were tested and recorded.

Three helmets of each model were tested on a bespoke test rig at RHEON LABS for a wide range of real-world impact scenarios, gathering a wide range of rotational and linear impact data. 30 helmets total were tested and recorded.

### LINEAR IMPACT

A linear impact is any impact in the normal direction of the helmet. These often act through the center of gravity.

Most helmets have been designed to protect against high speed linear forces with the intention of preventing skull fracture. However, lower speed linear forces can also cause traumatic brain injury and therefore it is important to protect across the full range of linear forces.

Linear tests on the helmets were undertaken to ECE standards by SATRA, an independent test house.

### ROTATIONAL IMPACT

A rotational impact is any impact that strikes the head with any tangential component, these are often called oblique impacts or glancing blows.

Most falls in motocross include some rotational element.

These impacts are strongly linked to mild traumatic brain injury (mTBI). However, these impacts are not accounted for by testing standards today.

All oblique testing was undertaken at RHEON LABS on their bespoke test rig according to advanced testing methods outlined in IRCOBI Conference 2016 paper.\*

**30 helmets were tested for linear impacts at SATRA, totaling 60 individual impacts.**

**30 helmets were tested for rotational impacts at RHEON LABS, totaling 90 individual impacts.**

## HELMET PERFORMANCE RANKING

FSL - Front Side Left  
FSR - Front Side Right  
BSR - Back Side Right  
FS - Front Side  
C - Crown

	Formula	A	B	C	D	E	F	G	H	I
Weight	1268g	1343g	1394g	1396g	1413g	1415g	1486g	1552g	1557g	1597g
Linear FSL	1	7	8	9	2	5	3	4	10	6
Linear BSR	2	4	8	6	5	3	1	10	9	7
Linear FSR	1	4	8	9	2	5	3	6	10	7
Rotational FSL	4	2	8	9	1	5	3	7	10	6
Rotational BSR	2	3	8	7	5	4	1	10	9	6
Rotational FSR	3	4	9	7	1	5	2	8	10	6
HIC FS	1	3	10	5	4	6	2	7	9	8
HIC C	3	6	10	4	5	2	1	7	9	8

Totals are the sum of the above test rankings. The lowest number represents the best overall performance.

Rank Totals	<b>18</b>	<b>35</b>	<b>72</b>	<b>60</b>	<b>30</b>	<b>41</b>	<b>23</b>	<b>67</b>	<b>85</b>	<b>64</b>
-------------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------	-----------

### CONCLUSIONS

Results show the Formula helmet is significantly reducing both the linear and rotational accelerations experienced by the headform during front oblique impacts.

A ranking system was developed to rank the 10 leading MX helmets tested. It takes into consideration all of the tests undertaken and outlined in this document – from tests for high and low speed linear accelerations, including HIC scores, as well as for high and low speed rotational accelerations.

The ranking also includes a factor of weight, as we believe reducing helmet mass is critical to our riders. The Carbon Formula is the lightest helmet in this range, beating all nine other leading MX helmets. These are the results based on this ranking.

**Testing concluded the Formula is a very high performance helmet which can significantly reduce linear and rotational accelerations. The FLY Formula is also shown to outperform the competition in an overwhelming majority of cases tested.**

## INDEPENDENT 3rd PARTY TESTING BY SATRA TECHNOLOGY

### SATRA TECHNOLOGY CENTRE, UK

SATRA is a leading independent testing house based in the UK. All external testing was completed in accordance with ECE 22.05 using a kerbstone anvil at 7.5 m/s.

ECE 22.05 is a high speed linear impact test for helmets devised to prevent skull fracture in high impact events.

Each of the 10 models of MX helmets were tested in both crown and front-side locations. These tests were then repeated on three separate helmets of the same models. Peak deceleration was noted and a Head Injury Criterion (HIC) score was given for each tested impact.

### SATRA Impacts Test Locations

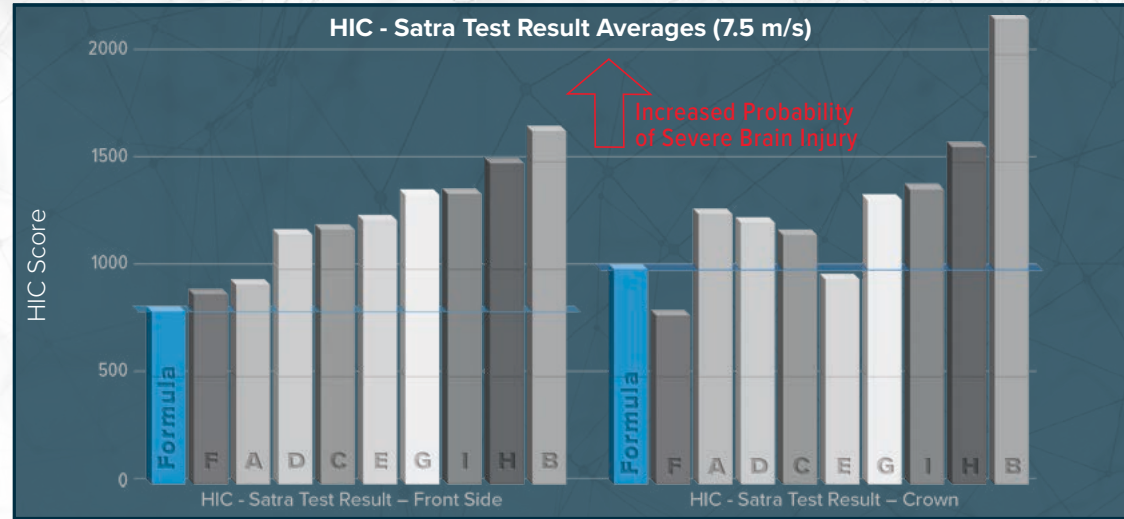

### HEAD INJURY CRITERION

The Head Injury Criterion (HIC) equation measures the risk of head injury. For helmets this is calculated using acceleration data derived from standard ECE linear drop tests.

An impact with a HIC score of 3000 is representative of a 99% probability of severe brain injury. At an impact with a HIC score of 1000 that probability drops to an 18% risk

of severe brain injury and down to 5% at a score of 700. Whilst these calculations are a useful indicator to measure the safety of a helmet, they should not be taken as universal scores. The possibility of sustaining a head injury from a crash is a highly variable event which is unique to the individual impact.

## HELMET TESTING FOR REAL-WORLD SCENARIOS BY RHEON LABS

### RHEON LABS LONDON, UK

The RHEON LABS state-of-the-art helmet test rig simulates both linear and rotational violence from 'real-world' events. These tests consist of a slider with a 30-degree wedge impacting a highly-instrumented bio-fidelic head (Hybrid III), neck and representative body mass. The tunable drop rig mimics the inertia of the human body which allows accurate representation of a head impact to be replicated.

Each of the 10 models of MX helmet was tested firstly

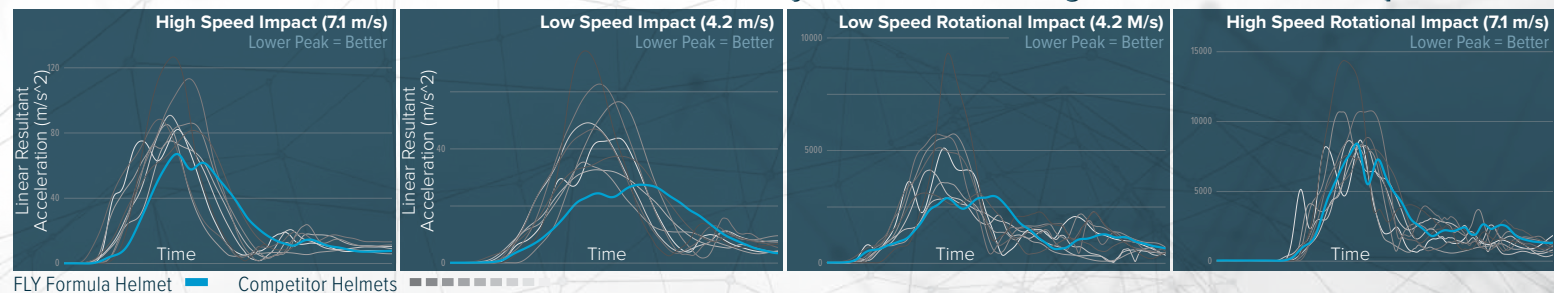

at front-side left (high speed 7.1m/s) followed by back-side right (high speed 7.1m/s) and lastly at front-side right (low speed 4.2m/s). The results for both linear and rotational acceleration data were recorded and the peak values noted for reference. These tests were then repeated on three separate helmets of the same models.

This testing method used the basis of the test method as described in IRCOBI Conference 2016 paper.\*

### RESULTS

These graphs show the best traces of all models of helmets tested. The reduction in peak acceleration achieved by the FLY Formula can be seen at high and low impact speeds in the traces of these four graphs, demonstrating that the helmet is working over a wide dynamic range of impacts.

### The FLY Formula Helmet Consistently Performed Amongst the Best for All Impacts Tests.

# F2 CARBON HELMETS

Designed to protect with a fit and feel that never gets in the way, the F2 has earned high praise as one of the best helmets out there — and for good reason. Easy comfort. All-time protection. A seriously sleek look. Features a one-piece tri-composite carbon fiber shell, mouth guard, Multi-Directional Impact Protection System (MIPS) and strategically placed venting for superior airflow. Go faster and soar higher with the elevated protection of the F2.

Multiple intake ports and exhaust vents connected to an accurately integrated EPS airflow system

Quick release, COOLMAX® comfort liner and cheek pads

High-flow mouthpiece

Seamless one piece mouth guard and chin bar construction

FLY Racing helmets meet the toughest safety standards in the market

TFV (True Function Ventilation)

MIPS® Multi-Directional Impact Protection System

Strong and lightweight machined aluminum visor screws

Stainless steel rivets and D-rings

## F2 CARBON MIPS® GRANITE HELMET

XS - 2X

### STANDARD

- ECE / DOT approved

### CONSTRUCTION

- MIPS® Brain Protection System: helmet-integrated, low-friction layer designed to reduce rotational motion transferred to the brain from angled impacts
- Carbon Matrix composite shell
- Dual-density EPS (Expanded Polystyrene) liner
- Custom rubber trim with integrated nose guard
- Lightweight machined aluminum visor screws
- Stainless steel rivets and D-rings
- Two shells and three EPS sizes for a precise fit

### COMFORT/LINER

- Removable and washable COOLMAX® comfort liner and cheek pads

### VENTILATION

- All FLY helmets have TFV (True Functional Ventilation). When in motion air is forced through multiple air intake vents, then passed through aligned vent channels in the EPS and exits out multiple rear exhaust vents
- Quad-vent above eye port draws air from goggle to reduce fogging

### INCLUDED ACCESSORIES

- Soft fleece helmet bag

### OPTIONAL ACCESSORIES

- Cold weather breath guard and ventilation plug kits:
 

Breath guard	<b>73-48002</b>
Plug kit XS-SM	<b>73-4509A</b>
Plug kit MD-LG	<b>73-4509B</b>
Plug kit XL-2X	<b>73-4509C</b>

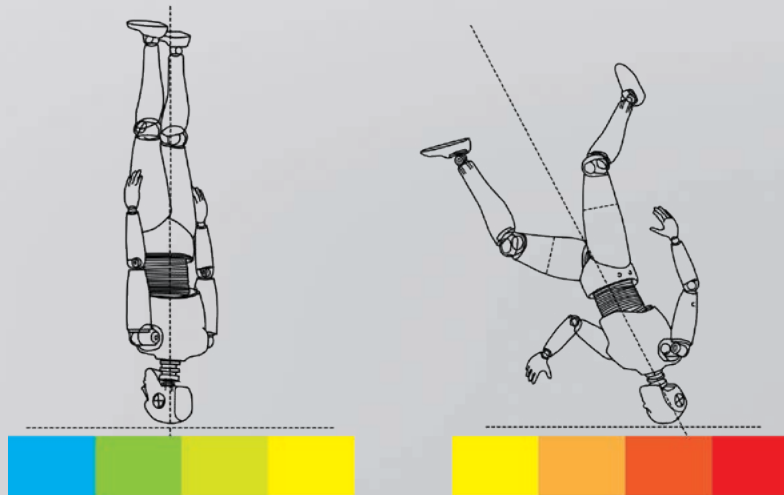

## WHAT IS MIPS?

In a helmet with MIPS Brain Protection System (BPS) the shell and the liner are separated by a Low Friction Layer. When a helmet with MIPS Brain Protection System is subjected to an angled impact, the low friction layer allows the helmet to slide relative to the head. The MIPS BPS is designed to add protection in helmets against the rotational motion. The rotational motion is a combination of rotational energy (angular velocity) and rotational forces (from angular acceleration) that both affects the brain and increases the risk for minor and severe brain injuries. MIPS BPS has been scientifically proven to reduce rotational motion when implemented in a helmet by absorbing and redirecting rotational energies and forces transferred to the brain.

## THE GREAT MISCONCEPTION

Accident statistics show that many injuries occur due to angled impact to the head. However, in standard helmet tests the helmet is dropped vertically onto a flat surface. The results are helpful for measuring precise vertical impacts, but inferior for measuring the increased protection against angled impacts.

LOW STRAIN LEVEL HIGH

## WHAT IS ROTATIONAL MOTION?

Rotational motion is a combination of rotational energy (angular velocity) and rotational forces (from angular acceleration). This rotational motion results in shearing and/or stretching of brain tissue which affects the brain and increases the risk for both minor and severe brain injuries.

## SHELL CONSTRUCTION

FLY Racing helmets are constructed and hand crafted using only the highest quality materials. These materials were selected to meet specific performance standards while providing best in class value. We have developed two distinct shells, a Carbon Matrix Composite and a Polymer shell. Our Carbon Matrix Composite helmet shell is constructed using a blend of carbon and Dupont™ Kevlar® synthetic fibers. As a result, these two fibers work together to deliver the lightest and most robust composite helmet shell on the market. Our Polymer helmet shell utilizes a very high quality thermoplastic polymer called Acrylonitrile Butadiene Styrene. Every polymer helmet shell is meticulously designed to balance weight and strength to provide the very best features and value within its category.

## DUAL-DENSITY EPS

All FLY Racing dirt helmets use a foam liner called Expanded Polystyrene (EPS). This foam manages the energy produced from an impact. While traditional helmets only utilize one layer of EPS, FLY Racing helmets utilize two. The two layers of EPS are formulated in unique densities independent from one another. These different densities allow the helmet system to more progressively manage energy over a wider range of impacts when compared to traditional helmets with only one layer of EPS.

## HIGH-FLOW VENTILATION

We designed our ventilation system with performance and comfort in mind. We have pushed our designers to create a High-Flow ventilation system. Vent channels in the EPS connect the intake vents to the exhaust vents, thus creating a complete cooling system. Channeling cool air into the helmet and pushing hot air out. Remove the comfort liner on any FLY Racing helmet to reveal an array of engineered ventilation channels. Our High-Flow ventilation system maximizes airflow to keep you cool and performing at your best.

# TOXIN HELMETS

The Toxin helmet combines safety and style, bringing protection into a range most others can't match. The durably lightweight polymer shell combined with the ventilation of its dual-stage EPS means you get solid protection where it counts and blasts of fresh air to keep breathing easy. DOT/ECE 22.05 approved with integrated Multi-Directional Impact Protection System (MIPS) to help reduce the risk of rotational forces. Whether you're dominating at the track or riding your favorite trail, just slip on the Toxin and let it take over.

*Multiple intake ports and exhaust vents connected to an accurately integrated EPS airflow system*

*Quick release, washable comfort liner and cheek pads*

*Integrated nose guard*

*High-flow mouthpiece*

## TOXIN TRANSFER MIPS® HELMET

XS - 2X

### STANDARD

# TREKKER HELMETS

However you seek to explore, wear the Trekker and ride in style. Whether you're rocking a dual-sport, adventure ride, ATV or side-by-side, it's your go-to helmet built to handle whatever may come, safe and secure. Configure your shield and visor to fit your riding style or wear your favorite goggles. The Trekker's versatility is unmatched.

Multiple intake ports and exhaust vents connected to an accurately integrated EPS airflow system

Durable scratch resistant face shield

Quick release, washable comfort liner and cheek pads

High-flow mouthpiece

Goggle compatible face shield

Raised shield tucks out of sight under the visor

Stainless steel rivet

TFV (True Function Ventilation)

## TREKKER HELMET

Quantum XS - 2X  
Solid XS - 2X

### STANDARD

- ECE / DOT approved

### CONSTRUCTION

- Durable and lightweight polymer shell
- Dual-density EPS (Expanded Polystyrene) liner
- Two shell sizes

### VISION

- Optically superior clear face shield with a durable hard coating for scratch resistance
- 100% UVA/B protection up to 400 nanometers

### SHIELD LOCK

- Visor and shield integration places the shield out of the line-of-sight in the raised position
- Shield is designed to accommodate goggles and goggle straps when in the closed position
- Easy shield changes: quick, secure and tool-less removal and installation

### COMFORT/LINER

- Removable and washable interior Qwick-Dry® comfort liner and cheeks pads
- Hydrophilic liner absorbs sweat and is perforated to provide plenty of ventilation

### VENTILATION

- All FLY helmets have TFV (True Functional Ventilation). When in motion air is forced through multiple air intake vents, then passed through aligned vent channels in the EPS and exits out multiple rear exhaust vents

### INCLUDED ACCESSORIES

- Highly visible 3M reflective stickers for increased visibility
- Side-plate covers included for street helmet configuration with the visor removed
- Soft fleece helmet bag

### OPTIONAL ACCESSORIES

- Breath guard: 73-3120

ZACH OSBORNE

# EVOLUTION DST

Total performance. Maximum comfort. Evolved for a customizable, exact fit that's tough yet flexible. A mainstay in the FLY Racing lineup for over a decade, (EVO-DST) now has Durable Stretch Technology (DST) at its core for another level up in form and function — combining superior strength with flexibility where you need it. The low-profile and multi-panel stretch design moves naturally with you whether you're running sprint laps on the track or handling hard miles on the trail.

## EVOLUTION DST JERSEY

SM - 2X **PERFORMANCE**

- Laser-cut perforations for advanced ventilation
- Full mesh back and integrated mesh in key areas
- Zero-cuff arm openings provide unrestricted mobility, and a comfortable fit
- Multi-directional neck and shoulder panels

### CONSTRUCTION

- Low profile multi-panel construction for maximum performance and a comfortable fit
- Seamless armpit construction prevents underarm rubbing and irritation
- Silicone-printed tail keeps jersey tucked in

### FIT

- Athletic fit: fits close to the body with minimal excess

Laser perf  
ventilation

Comfort  
stretch collar

Full mesh back  
and in key areas

Open zero cuff

Ratcheting  
FLY closure

DST fabric (Durable  
Stretch Technology)

Laser perf  
ventilation

Leather knees  
with Dupont™  
Kevlar®  
stitching

## EVOLUTION DST PANT

28 - 38

Evolution DST is FLY Racing's most progressive performance pant to date that combines all-way stretch mobility with heavy-duty durability for when flexibility and toughness are of equal importance.

### PERFORMANCE

- DST (Durable Stretch Technology) constructed of four-way HEX-Stretch fabric provides excellent mobility with heavy-duty durability
- Laser-cut perforations in key areas for advanced airflow
- Strategically placed stretch-mesh ventilation areas
- Relaxed leg cuffs

### CONSTRUCTION

- Exclusive four-way HEX-Stretch fabric construction is flexible and tough
- Leather heat shield panels with DuPont™ Kevlar® stitching
- Seat panel sewn to breathable light mesh reduces pulling
- Advanced liner adds increased comfort and performance

### FIT

- The BOA® System offers fast, on-the-fly micro adjustability
- Ratcheting FLY closure allows for adjustability
- Ergonomically pre-shaped knee accommodates most knee braces and guards
- Full-Floating durable 900D seat surrounded by HEX-Stretch material moves naturally with your body
- Exclusive zipper lock system keeps pants closed and secure

# LITE

Let the unparalleled lightweight performance, comfort and flexibility of Lite work hard for you without getting in your way. Just like your approach to getting better with each ride, we take a similar plan of attack in crafting the Lite gear. It's a constant process of revision and renewal toward improvement. Advanced breathability. An athletic, tailored fit. Flexible support where it counts. It all combines for the new way forward for a feel that almost feels like nothing at all.

## LITE JERSEY

SM - 2X

### PERFORMANCE

- Laser-cut perforations help dissipate heat
- Zero-cuff arm openings with reinforced mesh gussets provide unrestrictive mobility and a comfortable fit

### CONSTRUCTION

- Mesh ventilation panels dissipate unwanted heat
- Multi-panel construction for maximum performance and comfortable fit
- Low profile multi-directional tagless mesh collar
- Extended tail helps keep jersey tucked in

### FIT

- Athletic fit: fits close to the body with minimal excess

Ratcheting FLY closure

Stretch panels in knee / inseam / back / upper-seat

Laser Perf ventilation

Leather knees with Dupont™ Kevlar® stitching

Mesh ventilation in the back of knee to cuff

## LITE PANT

28 - 38

### PERFORMANCE

## PATROL XC GLOVES

7 - 13

### PERFORMANCE

- Protective off-road riding glove

### CONSTRUCTION

- Impact resistant, hard-knuckle construction with an additional mid-layer of impact foam for increased protection
- Adjustable TPR wrist closure system with hook and loop backing ensures proper fit
- Four-way stretch finger sidewall for flexibility, comfort, and airflow
- Reinforced double layer palm and thumb
- Embossed neoprene cuff
- Direct inject, flexible TPR finger protection
- Silicone finger and palm grippers

### FIT

- Comfortable classic fit: not too tight, not too loose

**BLACK** 372-680

**ORANGE/BLACK** 372-687

**GREY/BLACK** 373-680

**BLACK** 370-670

## **PATROL XC LITE GLOVES**

7 - 13

### **PERFORMANCE**

- Lightweight off-road race glove

### **CONSTRUCTION**

- Four-way stretch finger sidewall for flexibility, comfort, and airflow
- Single layer perforated synthetic leather palms for improved airflow and lightweight feel
- Flexible direct-inject knuckles and fingers provide lightweight protection
- Adjustable synthetic leather wrist closure for a more secure fit
- Embossed ultra-light neoprene cuff for a secure fit
- Reinforced layer thumb
- Silicone finger grippers

### **FIT**

- Comfortable classic fit: not too tight, not too loose

## WINDPROOF LITE GLOVES

7-13

### PERFORMANCE

- Lightweight windproof glove ideal for high intensity action sports in cooler weather

### CONSTRUCTION

- Lightweight windproof fabric on the back of hands, fingers, and fourchettes
- Silicon on fingers and palm for increased grip
- Single layer perforated synthetic leather palms for heat exhaust and lightweight feel
- Reinforced double layer thumb
- Soft-flex silicone logos

**BLACK** 371-140

# PATROL XC OFFROAD GEAR

When your ride involves steep climbs and drops in both terrain and temperature, count on Patrol XC to help save your hide from the elements. Tested and developed in the rugged Idaho backcountry. Purpose-built for the hardcore at heart. Ride in long-lasting comfort no matter how wild it gets — and no matter where the trails take you.

# PATROL OFFROAD GEAR

Into the great wide open. Off the beaten trail. The conditions vary and versatility is a must — especially when you least expect it. Patrol Off-Road Gear has you ready to ride through every element mother nature has in store. Mesh ventilation keeps you cool, while reflective material keeps you seen. Give yourself the ready-for-anything performance and comfort to never stop exploring with off-road gear built to endure it.

## PATROL XC PANT

30 - 40

### PERFORMANCE

- Ventilated comfort mesh liner helps keep you comfortable and cool
- Reflective prints for increased visibility
- Leather heat shield panels located on the inside of each leg
- Six large zippered vents located on the front and back of the upper leg
- Above-the-knee zippers offer additional airflow
- Two padded zippered pockets
- Internal pocket located inside the waistband
- Silicone print around the internal waistband help hold the pants up and stop them slipping down

### CONSTRUCTION

- Ultra-durable multi-panel 900d polyester construction
- Strategically placed stretch-rib panels

### FIT

- Full-floating seat surrounded by stretch-rib material is designed to move with you
- 3 piece ergonomically pre-shaped knee accommodates most knee braces and guards

## PATROL JERSEY

SM - 3X **PERFORMANCE**

- Durable mesh paneling for increased ventilation
- Short relaxed cuffs
- Reflective detail prints on the front and rear of the jersey

### CONSTRUCTION

- Multi-panel construction for maximum performance and comfortable fit
- Comfort-stretch tagless collar made with Lycra® and stretch-rib materials
- Extended tail helps keep jersey tucked in

### FIT

- Standard fit: not too tight, not too loose

## PATROL OVER - BOOT PANT

30 - 48

Our Patrol Pant has a proven track record of design functionality. Over-boot design provides all-day comfort and performance.

### PERFORMANCE

- Over-boot style provides a comfortable fit
- Ventilated comfort mesh liner for added airflow
- Six large zippered vents located on the front and back of the upper leg
- Above-the-knee zippers offer additional airflow
- Two easily accessible zippered pockets
- Reflective prints for increased visibility
- Internal pocket located inside the waistband
- Silicone print around the internal waistband help hold the pants up and stop them slipping down
- One easily accessible large zipper down the side of each leg easily allows you to open up the pant and fit it over your boots

### CONSTRUCTION

- Ultra-durable multi-panel 900d polyester construction
- Strategically placed stretch-rib panels
- Heavy duty accordion stretch panels at the calf allow the pant to fit nicely over boots without being too baggy
- Full leather, inner lower leg panel giving added durability

### FIT

- Full-floating seat surrounded by stretch-rib material is designed to move with you
- Ratcheting fly closure allows for adjustability at the waistband
- Three piece ergonomically pre-shaped knee accommodates most knee braces and guards
- hook and loop fastener tabs at the lower leg cuff easily allow you to adjust the cuff to fit around your boot

**HYDRO PACK ONLY** 28-5170

### CONSTRUCTION

- Ready-to-ride kit combines a storage and hydration pack with a Stingray front roost guard
- Streamlined and aggressive design combined with durable construction
- Removable 70oz. bladder provides hydration on long rides
- Removable shoulder cups

### FEATURES

- Multiple internal organizers and separate pockets to store and easily locate tools and items
- Rear tool and hydration pack can be easily removed and worn separately
- Compatible with most neck braces
- Reflective material on back

### FIT

- Ratcheting closure system located on shoulders and waist offer maximum adjustability and easy entry and exit

Hydro Pack Only

Back

## TOOL PACK

### CONSTRUCTION

- YKK® Shockonlok™ main buckle resists water absorption often caused by high humidity. Properties are stable under extreme temperatures such as cold mountain top air and desert heat

### FEATURES

- Removable flap reduces weight for lighter ride days and less hassle for mechanics
- Tire tube pocket is big enough to fit a spare tube or other necessities
- Tool compartment with key loop, clear plastic bolt pocket, fold down mesh pocket and elastic straps specifically designed to fit the basic tools needed to fix your bike on the trail
- Water bottle side pocket
- Side tool loops are wide and clutter free

### FIT

- Nylon grip strap helps keep the strap from loosening up and keeps it secure to the body
- No-slip back keeps pack in a secure position on rough terrain

**BLACK** 12-1864

## FLY RAIN JACKET

SM - 2X

### PERFORMANCE

- Low-profile elastic collar and sleeve cuffs
- Gusseted rear vent across upper back for added ventilation
- Vented mesh under arms
- Waterproof main zipper
- Easy to stow

### CONSTRUCTION

- Elastic waist
- Screen printed logos

**CLEAR** 354-6110

# BOOTS

Boots are a vital piece in every gear bag. Whether racing at the highest levels or on a weekend trail ride, you demand coverage and protection that keeps you in control. Step into fit, feel, style and comfort with FLY Racing boots.

Lateral / medial support structure

3D injected calf reinforcement plate

Bio-mechanical inner and outer pivots

FR5

Secure 4 buckle closure system

4-stage high-grip sole design

High impact shin plate  
with 3D impact structure

3D injected heel  
reinforcement plate

## FR5 BOOTS

Black & White  
Hi-Vis & Orange

### CONSTRUCTION

- Don't miss a shift with 3D molded plastic shift panel with added grooves and texture that also saves boot from premature wear
- TPU (thermoplastic polyurethane) heel piece connect with lateral/medial TPU pieces for full coverage
- Pre-shaped molded plastic 3D shin adds impact resistance and comfort
- Soft interior foam surrounds the ankle and collar
- Contoured TPU calf plate
- Full textile lining

### FEATURES

- CE Approved to EN13634:2015
- Innovative one-piece plastic injected 'fish tail' midsole
- Molded outsole provides a modern stylish look and helps to keep the weight down
- Outsole rubber compound provides good levels of grip while remaining durable
- Padded microfiber gaiter provides a comfortable rim around calf while sealing the opening from debris
- Bio-mechanical pivots on the inside and outside of the ankle for increased stability and support
- Rubber heat shield is long lasting, won't melt, and provides good grip

### FIT

- Adjustable aluminum quick-lock buckles provide a solid locked in feel and open design keeps dirt from clogging the function

# PROTECTION

FLY Racing protective products are made from cutting edge materials and designed to move with you. Whether you're dodging trees or logging laps at the track, FLY Racing has the full-range of protective gear to safeguard you for every ride.

## I REVEL RACE ROOST GUARD

Available in 2 versions: Race (low-profile) or Offroad (added shoulder and arm protection)

### CONSTRUCTION

- Revolutionary BioFoam® chassis attachment system eliminates injury-causing plastic rivets and utilizes soft plastics and TPR rubbers without high points that could injure in the event of an impact
- Air channels molded into the BioFoam allow hot air to escape

### FEATURES

- Full upper torso plastic roost deflector
- Neck brace compatible design: simply slide underneath the plastics or remove the plastic panels on the chest and back depending upon neck brace design
- Removable thermoformed soft BioFoam chassis for increased comfort and easy washing
- Multiple vents for maximum airflow

### FIT

- Adjustable shoulder straps for a custom comfortable fit
- Easy-to-use waist belt buckles integrated into the chest plastic
- Low-profile design can be worn under jersey

Offroad Version

## I CE REVEL RACE ROOST GUARD

Available in 2 versions: Race (low-profile) or Offroad (added shoulder and arm protection)

### CE CONSTRUCTION

- CE rated protection created using a triple layer, high density memory foam in between the outer plastic and the BioFoam® that is in contact with the user. Triple layer construction (as opposed to a single thick layer) allows layers to move relative to one another further improving impact performance

## BASE LAYERS LIGHTWEIGHT

XS - 2X

### CONSTRUCTION

- High-IQ™ Advanced Evaporation Technology – fast wicking hollow-core fibers transport moisture to the outer surface to dry quickly
- Flat-lock stitch seam construction

### FEATURES

- Multi-direction stretch fabric allows for un-restricted range of motion
- Open fabric structure offers lightweight warmth and all day comfort
- UPF 40+ sun protection
- Polygiene® odor Control Technology

### FIT

- Ergonomic panels are form fitting (non-compression)

## BASE LAYERS HEAVYWEIGHT

XS - 2X

### CONSTRUCTION

- Extra warm fabric that still wicks moisture fast and dries quickly
- Flat-lock stitch seam construction

### FEATURES

- Multi-direction stretch fabric allows for un-restricted range of motion
- UPF 40+ sun protection
- Polygiene® Odor Control Technology

### FIT

- Ergonomic panels are form fitting (non-compression)

## MID LAYERS

Jacket SM - 4X  
Pants SM - 4X

### JACKET

#### CONSTRUCTION

# YOUTH

For the kids who live to ride, the FLY Racing youth line's new look is as bright as their future. No detail is spared, and nothing is overlooked. The FLY Racing youth line is built with the same high-quality craftsmanship and protection the adults receive, just scaled down in form. Whether they're a first-time rider or a seasoned racer competing for an amateur national championship, FLY Racing has exactly the right fit.

YS - YL

**STANDARD**

- DOT approved

**CONSTRUCTION**

- Durable and lightweight polymer shell
- Dual-density EPS (Expanded Polystyrene) liner
- Custom molded rubber trim with integrated nose guard

**COMFORT/LINER**

- Removable and washable comfort liner and cheek pads absorb sweat while providing ventilation

**VENTILATION**

- All FLY helmets have TFV (True Functional Ventilation). When in motion air is forced through multiple air intake vents, then passed through aligned vent channels in the EPS and exits out multiple rear exhaust vents
- High-flow mouthpiece is replaceable

**INCLUDED ACCESSORIES**

- Soft fleece helmet bag

**OPTIONAL ACCESSORIES**

- Cold weather breath guard: 73-48260

- Dedicated fleece-lined top-loading laptop compartment fits most 17" laptops and iPad®/tablet/e-readers
- Padded mouse/digital camera pocket
- Two fleece lined stash pockets
- Water bottle pocket with bottle lock feature
- Deluxe organization panel with zippered pocket
- Quick access expandable phone pocket

**BLACK/WHITE** 28-5005

### FLY ROLLER GRANDE

17"H x 16"W x 33"L ROCKSTAR  
17"H x 16"W x 33"L

#### CONSTRUCTION

- Durable PVC backed nylon
- Durable smooth rolling rollerblade style wheels
- Large mesh panels and vent grommets allow dirty gear to breathe and dry

#### FEATURES

- Two large separate pockets on each end for easy storage of boots and dirty gear
- Large center main compartment to store bigger items
- Mud mat is accessible from the side of the bag
- Included adjustable shoulder strap
- Clear exterior business card sleeve
- Tool storage pocket and inside pockets
- Fleece-lined goggle pocket
- Telescoping handle

**ROCKSTAR** 28-5134  
**BLACK/GREY** 28-5135

### FLY TOUR ROLLER

11"H x 16"W x 28"L

#### CONSTRUCTION

- Durable PVC backed nylon
- Durable smooth rolling rollerblade style wheels
- Vent grommets allow dirty gear to breathe and dry

#### FEATURES

- Fleece lined pockets for goggles and accessories
- Mud mat is accessible from the side of the bag
- Includes adjustable shoulder strap
- Clear exterior business card sleeve
- Telescoping handle

**BLACK/GREY** 28-5136

### FLY CARRY-ON

14"H x 12"W x 19"L

#### CONSTRUCTION

- Durable PVC backed nylon

#### FEATURES

- Ideal for carry-on air travel
- Separate shoe compartment
- Clear exterior business card sleeve
- Comfortable molded rubber carry handles
- Removable padded shoulder strap

**BLACK/GREY** 28-5137

#### FLY MAIN EVENT BACKPACK

19"H x 15"W x 7"D

##### CONSTRUCTION

- YKK® zippers
- Embroidered and TPR logos

##### FEATURES

- Padded front pocket
- Adjustable sternum strap
- Multiple internal accessory organizer pockets
- Separate padded side-entry laptop compartment
- Top small fleece lined accessory pocket

**BLACK/GREY** 28-5140

#### FLY HELMET GARAGE

11"H x 10"W x 16"L

##### CONSTRUCTION

- Durable PVC backed nylon
- Upper mesh venting to allow helmet to dry
- Plastic bottom to keep helmet separated from the elements
- Custom metal vent eyelets
- Appliquéd and TPR logos

##### FEATURES

- Generous side pockets hold goggles and tear-offs
- Comfortable molded rubber carry handle
- Fleece liner protects helmet paint

**BLACK/GREY** 28-5139

#### FLY GOGGLE GARAGE

5.5"H x 10.5"W x 16"L

##### CONSTRUCTION

- YKK® Zippers – industry standard, abrasion resistant zippers
- Molded carrying handle
- Crush resistant case

##### FEATURES

- 5 goggle storage slots
- 5 lens storage pockets
- Fully adjustable storage slots
- Pocket for accessories and lenses
- 180° adjustable lid
- Hang loop conveniently hangs case on wall hook while in use

**BLACK/GREY** 28-5070

#### FLY DIRT BAG

28"H x 21"W

##### CONSTRUCTION

- Heavy mesh construction
- Drawstring closure on top

##### FEATURES

- Keeps dirty and clean riding gear separate in your gear bag
- Black with graphics

**BLACK** 28-5158

YOUTH		
SIZE	SLEEVE	CHEST
YS	20"-21"	20"-22"
YM	22"-23"	24"-26"
YL	24"-26"	28"-30"
YXL	27"-30"	32"-33"

ADULT		
SIZE	SLEEVE	CHEST
S	31"-32"	34"-35"
M	32"-33"	36"-38"
L	33"-34"	40"-42"
X	34"-35"	44"-46"
2X	37"	48"-50"
3X	38"	52"-54"
4X	38"	56"-58"
5X	38"	60"-62"

### MEN'S AND YOUTH RACE PANTS

**Waist**- Measure about 1" below the pelvis bone.

**Inseam**- Measurement is actual pant inseam.

YOUTH		IN-BOOT	OVER-BOOT
SIZE	WAIST	INSEAM	INSEAM
18	18.5"-20"	19.5"	22.5"
20	20.5"-22"	21"	23.5"
22	22.5"-24"	22"	24"
24	24.5"-26"	24"	25"
26	26.5"-28"	26"	26"

ADULT		IN-BOOT	OVER-BOOT
SIZE	WAIST	INSEAM	INSEAM
28short*	28.5"-30"	24"	
28	28.5"-30"	26"	31"
30	30.5"-32"	27.5"	31.5"
32	32.5"-34"	28"	32"
34	34.5"-36"	29"	33"
36	36.5"-38"	30"	34"
38	38.5"-40"	30"	34"
40	40.5"-42"	30"	34"
42	42.5"-44"	30"	34"
44	44.5"-46"	30"	34"
46	46.5"-48"	30"	34"
48	48.5"-50"	30"	34"

\*Size not available in over-boot style

# RACEWEAR WOMEN'S SIZE CHARTS

## WOMEN'S AND YOUTH JERSEYS

**Sleeve-** Measure from the center of the spine at the base of the neck, around the shoulder, over the elbow and down to the wrist.

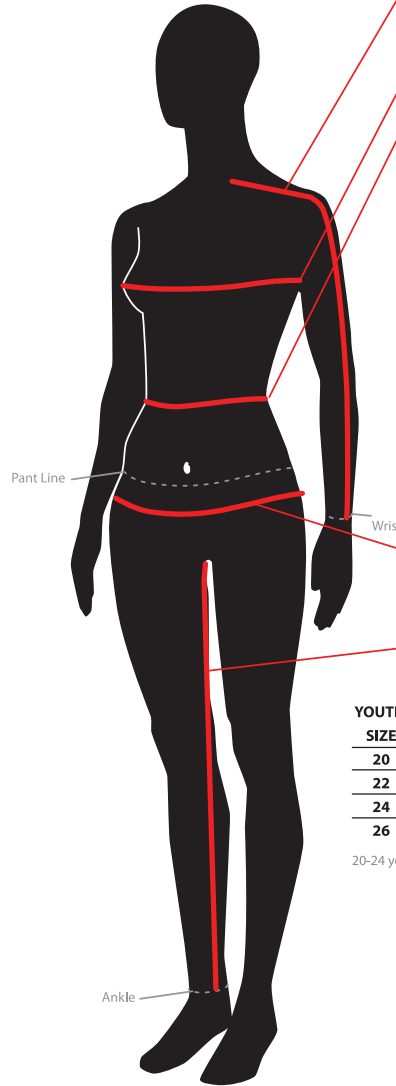

**Bust-** Measure around the fullest part of the bust.

**Waist-** Measure around the narrowest part of the waist

YOUTH		
SIZE	SLEEVE	WAIST
YS	20"-21"	20"-22"
YM	22"-23"	24"-26"
YL	24"-26"	28"-30"

Youth sizing above is same as men's youth sizing.

ADULT			
SIZE	SLEEVE	BUST	WAIST
XS	28"	32"	23.5"-24.5"
S	29"	35"	25.5"-26.5"
M	30"	38"	27.5"-28.5"
L	31"	41"	30"-31.5"
X	32"	44"	33"-35"
2X	33"	48"	37"

## WOMEN'S AND YOUTH RACE PANTS

**Hip-** Measure around the body halfway between belly button and crotch.

**Inseam-** Measurement is actual pant inseam.

YOUTH		IN-BOOT	OVER-BOOT
SIZE	WAIST	INSEAM	INSEAM
20	20.5"-22"	19.5"	20.5"
22	22.5"-24"	20"	22"
24	24.5"-26"	21"	26"
26	26.5"-28"	24"	28"

20-24 youth sizing above same as men's youth sizing

ADULT	(MEN'S SIZE CROSS REFERENCE*)	HIP MAX	IN-BOOT INSEAM	OVER-BOOT INSEAM
0/2	(28)	33"	27"	30"
3/4	(30)	36.5"	28"	31"
5/6	(32)	40"	29"	31"
7/8	(34)	42"	30"	32"
9/10	(36)	44"	30"	32"
11/12	(38)	46"	30"	33"
13/14	(40)	48"	30"	33"
15/16	(42)	50"	30"	33"
17/18	(44)	52"	30"	33"
19/20	(46)	54"	30"	33"

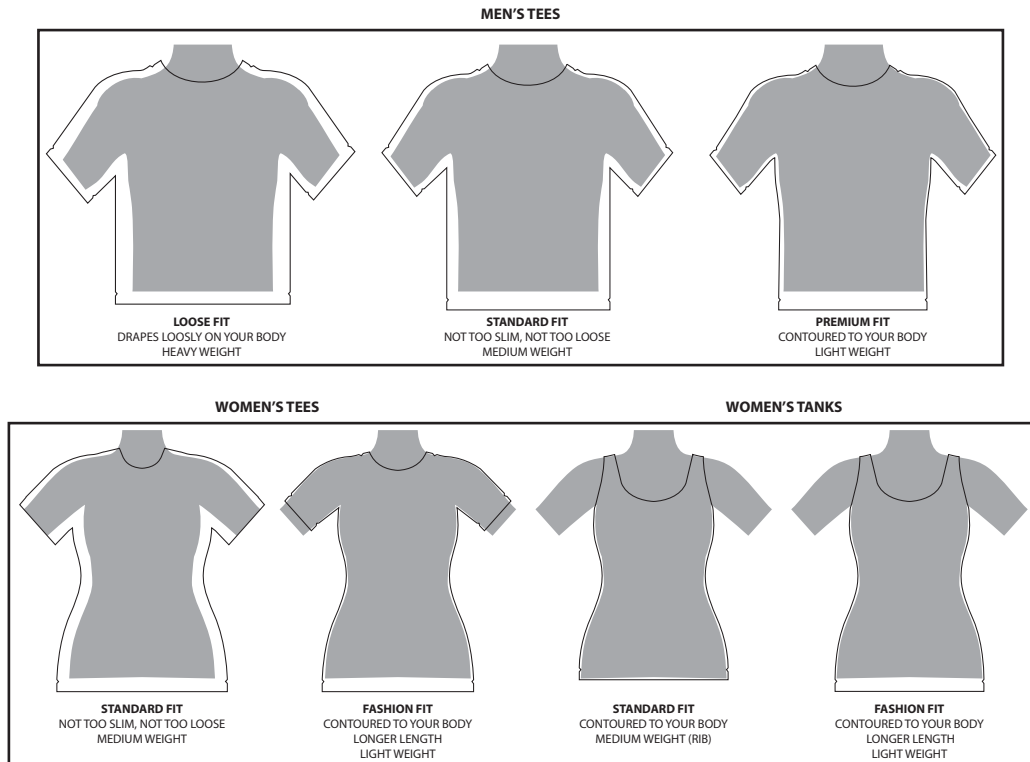

\*Cross reference to Men's size is approximate fit in comparison. Women's pants are shaped different than men's to fit the female body, so there are fitment differences between Men's and Women's.

## JERSEY FIT REFERENCE CHART

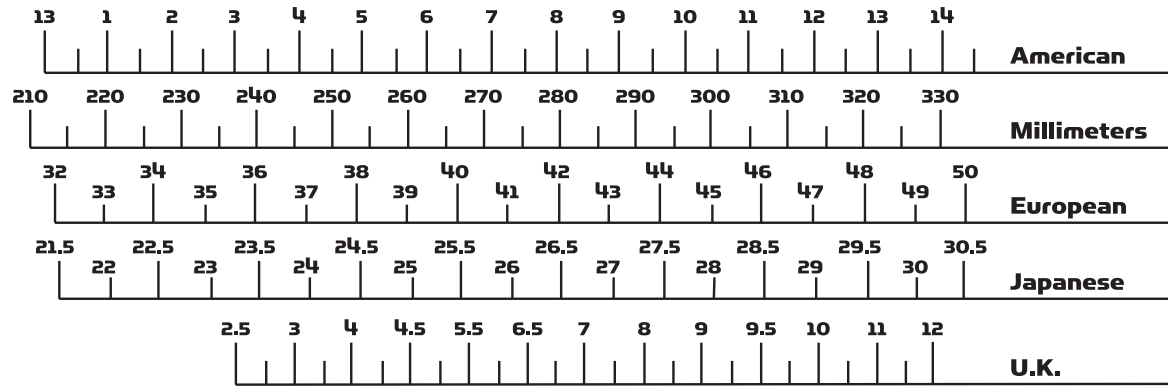

## CASUAL FIT GUIDE

**| BOOT FIT GUIDE**

**SIZE CONVERSION**

**| HELMET SIZING CHART**

To determine helmet size: Measure around head one inch above eyebrows and across the largest portion on the back of the head and use the following cross reference chart.

SIZE	YS	YM	YL	XS	S	M	L	X	2X	3X	4X	5X
<b>U.S.HAT SIZE</b>	5 7/8 - 6	6 1/8 - 6 1/4	6 3/8 - 6 1/2	6 5/8 - 6 3/4	6 7/8 - 7	7 1/8 - 7 1/4	7 3/8 - 7 1/2	7 5/8 - 7 3/4	7 7/8 - 8	8 1/8 - 8 1/4	8 3/8 - 8 1/2	8 5/8 - 8 3/4

**GLOVE SIZES**

Finger proportions vary from person to person. Estimate your glove size according to your longest fingers for a comfortable fit. The Example hand below would be a size large.

The ball of your thumb should be just in front of the line
