PROUD SPONSOR OF:

Scosche® products fit flawlessly in the demanding world of action sports, motorsports and outdoor adventures.

Take our new Rockstar Edition line for example. This diverse array of consumer tech products are Optimized for Outdoors®. That means they were designed, manufactured and tested to withstand the harsh environments, extreme weather conditions, bumpy terrains and rough handling associated with activities like supercross/motocross racing, off-road cycling and ATV/UTV adventures. Of course they work great when you are hiking, mountain biking or simply headed to the beach too!

Regardless of what outdoor pursuit you choose, we live in an age driven by technology and connectivity. So typically we take our smartphones, tablets and other mobile devices along with us as we trek into the great outdoors. Scosche products support both your journeys and your mobile device usage needs throughout each adventure. They fill a number of important roles - safety, convenience, entertainment and utility. That's why at Scosche we make products that are truly Accessories for Life® and Optimized for Outdoors®.

# OPTIMIZED for OUTDOORS<sup>®</sup>

No matter the weather, season or terrain, the outdoor enthusiast needs an assortment of gear. Gear that is built to perform reliably and consistently day in and day out. Scosche offers an array of products to support your journey.

## BoomBottle<sup>+</sup> Rugged Waterproof Wireless Speaker
