In the old days, the local auto parts store or 4x4 shop had unique American-made parts with competitive prices and excellent quality, all backed by decent warranties and professional local service. We at Steinjäger still believe in that model.

Steinjäger *Red Store Dealers* stock and offer Steinjäger's most popular products. Store configurations include parts for Jeep JK and TJ Wranglers and for Steinjäger's builders parts - heim joints, thread bungs, studs, high mis-alignment inserts, fasteners, weld-on tabs and more. ALL of our parts made to fit Jeep Wranglers are made by us in America; That's right: we weld, paint, machine, forge, assemble, sew, package & ship in a small farm town in rural Illinois.

About Us, Mission

Mission & Culture

We are dedicated to bringing the off road community high quality American made products that are fun, unique, loaded with options, and whose value and quality are apparent to the customer. We have carefully and deliberately created a culture within Steinjäger that encourages individual creativity in a team atmosphere. The results of this are manifested in the broad and diverse number of products we offer. We take great joy in designing and manufacturing products that help you enjoy your off road experience.

History

The photos in this catalog were taken in Sep 2012 near Zell am See in Austria and helped inspire the creation of Steinjäger in February 2013. The word *Steinjäger* is an original Steinjäger creation. It is German for *rock hunter*. The Ibex character, a registered trademark of Steinjäger, was chosen because of the rugged nature of the Ibex: Ibex live above the tree line in the Alps of Austria and symbolize our desire to offer our customers products that embody the freedom, joy, boldness, independence, rugged living and excitement of off road motorsports.
